

IMPRESSION

HFT - 130M

Polyurethane Finishing agent
For Nature and synthetic fiber

IMPRESSION HFT-130M is water soluble polyurethane resin for finishing agent of fiber(silk, polyester and polyamide fiber) by heat curing.

A solvent-free water-soluble polyurethane resin. Imparting soft handle and hygroscopic property as well as good resiliency and crease resistance. Showing good compatibility with various resin, and therefore suitable for shape-memory finishing of cellulose fiber

FEATURES	Good resiliency as heat curing type A solvent free water soluble Polyurethane resin Good Mixable with various resins as non-ionic type Non Yellowish type
COMPOSITION	Water soluble polyurethane Solid Content : 30%
APPEARANCE	Colorless transparent liquid
USE & DRY CONDITION	Recommended Use weight : 2 - 10% solution(On the base of solid) Dry Condition : Pad Dry(100 X 2min) Cure(150 X 2min)
HANDLING & STORAGE	IMPRESSION HFT- 130M can be stored for 6 months at below 25 . Please avoid exposure to humidity or temperature above 50 for long time. Packing : 125Kg Plastic Drum
NOTICE	The above enclosed system are designed to help you select system for typical system. For more information on IMPRESSION HFT- 130M, simply return the product information request sheet via FAX and E-mail. The technical support formulation and application specialists at HEPCE CHEM are standing by to assist you... whatever your needs.
