

IMPRESSION

HFT - 200M

Polyurethane Finishing agent
For Nature and synthetic fiber

IMPRESSION HFT-200M is water soluble polyurethane resin for finishing agent of fiber(silk, polyester and polyamide fiber) by heat curing.

A solvent-free water-soluble polyurethane resin. Imparting soft handle and hygroscopic property as well as good resiliency and crease resistance. Showing good compatibility with various resin, and therefore suitable for shape-memory finishing of cellulose fiber

FEATURES	Good resiliency as heat curing type A solvent free water soluble Polyurethane resin Good Mixable with various resins as non-ionic type Non Yellowish type
----------	--

COMPOSITION	Water soluble polyurethane Solid Content : 100%
-------------	--

APPEARANCE	Light yellowish Clear liquid(Below APHA 100)
------------	--

USE & DRY CONDITION	Recommended Use weight : 2 - 10% solution Dry Condition : Pad Dry(100 X 2min) Cure(150 X 2min)
------------------------	---

HANDLING & STORAGE	IMPRESSION HFT- 200M can be stored for 12 months at below 25 . Please avoid exposure to humidity or temperature above 50 for long time. Packing : 125Kg Plastic Drum
-----------------------	--

NOTICE	The above enclosed system are designed to help you select system for typical system. For more information on IMPRESSION HFT-200M, simply return the product information request sheet via FAX and E-mail. The technical support formulation and application specialists at HEPCE CHEM are standing by to assist you... whatever your needs.
